

All-Hazards Public Information Officer (L-952)

December 3-7, 2018

This course is designed for a PIO assigned to an incident as a member of an All-Hazard Incident Management Team (AHIMTs), Local IMTs, as well as for the PIO assigned to an incident as an assistant PIO in a variety of capacities. This course will help students develop a strong set of core PIO skills and the ability to apply them within the context of an AHIMT. This course is also distinct from other information function courses in that it combines elements from both the basic and advanced function to concentrate training on the fundamental duties and responsibilities of PIO in an all-hazard environment. The course material does not assume or require experience as a PIO, but also is not a basic PIO course. Exercises, simulations, discussions, and a final exam enable students to process and apply their new knowledge.

Prerequisites: IS 100, 200, 700 & 800; ICS 300, 400

Class Size: Minimum 15, maximum 20 students

Target Audience: Fire service, law enforcement, emergency management, public works departments, as well as public health organizations, medical emergency teams, and hospitals, to include those local- or State-level emergency responders who may be designated as Public Information Officers on their local or state Incident Management Team.
