

# ACTIVE ATTACK INTEGRATED RESPONSE COURSE INDIRECT

**Course Description:** The Active Attack Integrated Response Course (AAIR) is a 16 hour performance level direct delivery course designed to improve integration between law enforcement, fire, tele-communicator and emergency medical services (EMS) in active attack / shooter events. The course provides law enforcement officers with key medical skills based on tactical emergency casualty care (TECC) guidelines, which can be used at the point of injury (POI) to increase survivability of victims. The course also provides a model framework for law enforcement, fire, and EMS to integrate responses during an active attack / shooter event through the rescue task force concept. This course has been designed to improve the safety and survivability of victims of active attack / shooter events and increase the effectiveness, coordination, and resource integration between law enforcement, fire, tele-communications and EMS when responding to these events.

**6 Class Dates (2 Days Each @ 16 Hours Total) Available in 2018! Please choose from the course dates below!**  
**8 AM - 5 PM each day.**
